

MEMORANDUM OF INFORMED CONSENT

In order to insure that both parties, the physician and his assistants, and the patient, have a common understanding of the treatment that is being offered, this Memorandum is provided.

1. The treatments that Dr. Lansky offers are COMPLEMENTARY medical treatments. This means that these treatments are not intended for the direct prevention or treatment of disease, *per se*, but rather that they are intended to bolster the health, vigor, internal balance, and immunological competence of the patient so that he or she will be in a stronger position to fight his or her illness with his or her own natural defenses.
2. Stated more succinctly, these COMPLEMENTARY treatments provided by Dr Lansky are in no way intended as replacements for any standard-of-care medical treatments.
3. If agreed upon in advance, this informed consent also confirms that the risks and benefits of medical hypnosis have been adequately explained to the patient's satisfaction by Dr Lansky and that the patient hereby also indicates his or her consent for receiving medical hypnosis treatment from Dr. Lansky. If this last point is not agreed upon, then this paragraph 3 will be X'd out and initialed also by the signatory as having been deleted. If the patient does agree to be hypnotized, or if the patient has already agreed in a separate agreement to be hypnotized by Dr Lansky, then this paragraph should be left as is prior to signing -- allowing this MEMORANDUM to also serve as a formal agreement to be hypnotized by Dr Lansky.
4. The patient fully understands and agrees to all of the above. Further the patient fully acknowledges and accepts that it is his or her own and full responsibility to receive from Dr Lansky adequate explanation regarding any complementary medical intervention to be received from Dr Lansky or his assistants to his or her (i.e., the patient's) satisfaction prior to receiving any of those interventions, and fully and without exception absolves and agrees to hold Dr Lansky and his assistants harmless from any personal damage that may occur to the patient as a result of his or her own illness or from any of the complementary treatments given by Dr Lansky or his assistants.

AGREED UPON ON THE DATE:
